As a devoted learner, I have come to love the challenge of mastering new skills independently. I am a thrill seeker, willing to take the path of most resistance in order to sate my craving to fully understand the things I see and feel.

## EXPERIENCE

### Tanach Study

*June 2014 – Present*

#### Co-founder & Chief Technology Officer

- Upgraded our entire web presence to a totally custom full-stack web-app built using Express, React, PostgreSQL, and MaterializeCSS, deployed on AWS
- Actively manage a web server, podcast, and daily email that reach thousands worldwide
- Revolutionized traditional Bible study methods by creating a modern, web based framework

### Automated Control Concepts

*June 2016 – August 2016*

#### Computer Engineering Intern

- Engineered client-specific SCADA applications to automate complex infrastructural processes
- Interfaced with clients, understanding their needs and proposing solutions to their challenges
- Authored technical manuals for non-technical end users

### Junee's

*December 2015 – June 2016*

#### Marketing Manager & Senior Developer

- Developed a marketing strategy for the company's entire social media presence
- Transitioned the company's online sales forums to a modern, organized platform
- Defined new standards for the Junee brand, creating a consistent appearance across all media

### Genie Web Solutions

*October 2015 – June 2016*

#### Lead Developer

- Created e-commerce websites for clients that were tailored to their business models
- Managed relations with clients, from the initial approach to product delivery
